BIOGRAPHY

Mike Arbrouet is an IBM Field CTO and cybersecurity strategist with over 15 years of experience protecting enterprises and shaping the next generation of security leaders. Bilingual in English and French, Mike operates at the highest levels of technology strategy while maintaining a deep commitment to community.

As **Founder of Tainos CyberCon**, Mike created a platform bridging industry professionals and emerging talent in cybersecurity. He is a speaker and contributor at **UWF GenCyber**, serves on the **UWF Advisory Board**, and chairs **IT Gulf Coast**.

A **Featured Speaker at AFROTECH™ 2025** in Houston, TX — one of the largest Black tech conferences with 40,000+ attendees — Mike also speaks at **ITEN WIRED | TechNet CyberCoast**, **NolaCon**, and **BSides**. He holds **23 certifications** including CISSP and CISM, and three degrees: M.S. Cybersecurity, B.S. Computer Science, and A.S. Network Administration.

As an **ARIN Fellow** and **ICANN Fellow**, Mike is recognized internationally for his contributions to internet governance and cybersecurity policy. Co-founder of **YottaSec**.

“The old advice was to ‘wait until you’re the expert before you speak up.’ I went the other way. I shared ideas, asked questions, and took on challenges before I had all the answers. It opened doors to mentors, opportunities, and growth I would’ve missed if I’d waited for perfect.”

— FEATURED IN AFROTECH™, SEPTEMBER 2025

MC INTRODUCTION SCRIPT (60-SECOND READ-ALOUD)

Our next speaker has spent over 15 years at the intersection of enterprise cybersecurity and transformational leadership. As IBM Field CTO, he advises organizations on the most complex security challenges — from AI-driven threats to Zero Trust architecture at scale. He is the Founder of Tainos CyberCon, an ARIN Fellow, an ICANN Fellow, and a board member at the University of West Florida. He holds 23 certifications including CISSP and CISM, alongside three degrees in Computer Science, Cybersecurity, and Network Administration. A featured speaker at AFROTECH™ 2025, ITEN WIRED, NolaCon, and BSides, he connects technical expertise with real human impact. Bilingual in English and French, he brings a global perspective to every stage. Please welcome — **Mike Arbrouet**.

01

AI Security and Governance

How AI is reshaping the threat landscape — adversarial AI, deepfakes, automated attacks, and governance frameworks.

LEARNING OUTCOMES

- AI-driven attack vector mapping
- AI governance policy framework
- Practical defensive strategies for AI systems

02

Zero Trust & Perimeterless Systems

Practical Zero Trust implementation for enterprises at every maturity stage, with real-world case studies.

LEARNING OUTCOMES

- Zero Trust maturity model
- Implementation roadmap by org size
- Measuring security posture improvements

03

Leadership in the Digital Age

Leading technology teams through disruption — building resilient cultures and developing the next generation of leaders.

LEARNING OUTCOMES

- Leadership frameworks for uncertainty
- Building high-trust security teams
- Talent pipeline and succession strategies

04

The Human Element in Cybersecurity

Social engineering, insider threats, and building a security-first culture — because the best firewall is human.

LEARNING OUTCOMES

- Human vulnerability assessment
- Security awareness program design
- Insider threat detection frameworks

05

Cybersecurity for Executive Leaders

Translating technical risk into business language for C-suites and boards.

LEARNING OUTCOMES

- Board-level risk communication
- Security ROI frameworks
- Regulatory landscape overview

06

Diversity in Cybersecurity

Why diverse teams build more resilient security postures — and how to create sustainable pathways into the profession.

LEARNING OUTCOMES

- Business case for diverse security teams
- Recruitment and retention strategies
- Community pipeline programs

07

Resilience Through Adversity

Navigating career setbacks, systemic barriers, and high-pressure environments — and coming out stronger.

LEARNING OUTCOMES

- Personal resilience frameworks
- Leading through organizational crisis
- Mentorship and sponsorship models

08

Threat Modeling: Framework to Practice

STRIDE, PASTA, and custom enterprise frameworks for hybrid cloud environments.

LEARNING OUTCOMES

- Methodology selection guide
- Practical workshop exercises
- DevSecOps pipeline integration

09

Trustworthy AI & Innovation

Building AI systems that behave ethically, transparently, and securely.

LEARNING OUTCOMES

- AI ethics and governance
- Bias detection and mitigation
- Regulatory compliance for AI

10

Quantum Security

What post-quantum computing means for encryption, key management, and enterprise security infrastructure.

LEARNING OUTCOMES

- Post-quantum cryptography timeline
- Migration strategy for at-risk systems
- NIST PQC standards overview

CREDENTIALS & EXPERIENCE

EDUCATION — 3 DEGREES

M.S. Cybersecurity

Master of Science

University of West Florida

B.S. Computer Science

Bachelor of Science

University of West Florida · 2021

A.S. Network Admin.

Associate of Science

University of West Florida

CERTIFICATIONS (23)

FELLOWSHIPS & BOARDS

· Security Architect — Enterprise Security Strategy

SPEAKING ENGAGEMENTS

EVENT	DETAILS	ROLE
AFROTECH™ Conference	Oct 27–31, 2025 · Houston, TX · 40K+ Attendees	Featured Speaker
Tainos CyberCon	Annual Conference · Founder's Keynote	Founder & Keynote
ITEN WIRED TechNet CyberCoast	2025 · Pensacola Beach, FL · w/ CISA, IBM, META	Featured Speaker
NolaCon	Security Conference · New Orleans, LA	Speaker
BSides	Community Security Conference	Speaker
UWF GenCyber	University of West Florida Cyber Program	Speaker & Contributor

BOOKING & AVAILABLE FORMATS

KEYNOTE	30–60 min	Conference opener/closer. Custom slide deck, Q&A, meet & greet available.
PANEL	45–90 min	Expert panel or moderated discussion. Available as panelist or moderator.
WORKSHOP	Half / Full Day	Interactive deep-dive with hands-on exercises. Custom curriculum available.
VIRTUAL/HYBRID	Flexible	Full AV setup. Supports polling, breakouts, and live Q&A.
CONSULTING	Ongoing/Project	Strategic advisory, executive coaching, technology roadmap development.

TECHNICAL / AV REQUIREMENTS

STAGE	Podium or standing setup preferred. Lavalier or handheld wireless mic.
SLIDES	Widescreen 16:9 display. HDMI connection with clicker provided.
SLIDE FORMAT	Keynote (.key) or PowerPoint (.pptx). Delivered 5 business days prior.
ROOM SETUP	Theater/classroom for keynotes. Rounds for workshops.
VIRTUAL AV	Zoom / Teams / Webex. Dedicated tech support required.
GREEN ROOM	30 minutes pre-event for preparation and A/V check.
